CONNECTICUT ASSOCIATION STANDING. | Stakes of \$2500 for crotters in Won. Lost P.C. | 2.25 class. (Special to The Builetin.)

Willimantic, Conn., Aug. 25.— The Colts had a day off all around Thursday and Middletown administered Thursday and Middletown administered a shutout in easy fashion in a rather loosely played and listless game from a local standpoint for the first four innings. Perhaps the Colts are on the toboggan and are slipping just a triffe—anyway, something was wrong and Ferris again proved to be the Willimantics' hoodoo, allowing but three measily hits, one of which was a genuine scratch.

Ferris again proved to be the Williamstics hoodoo, allowing but three measly hits, one of which was a genula scratch. Prom the etart Middletown looked dangerous and Manley was not in his usual good form that he has shown against the Middletown bunch and they found no difficulty in landing on his sunts for nine safe hits in the first country of the home team played pretty loose being him also during these innings, and could not hit the pill themselves and disheartening to the fans. When Middletown came in to bat in the fifth Smith was substituted in place of Manley and Harris took Smith's place in the right garden and Manley warmed the bench. SMART GAINS AT OPENING But List Suddenly Turned Before End of First Hour.

New York, Aug. 25.—Stocks opened with smart gains in this market today, responding in full measure to the higher levels for Americans in London, but before the end of the first hour the list suddenly turned, all the active issues selling off. The reversal was concurrent with reports telling of serious damage by frost to the corn crop in Nebraska and surrounding territory. Apart from this no specific reason was advanced to account for the break. The short interests, which at the outset felt impelled to cover its contracts, found that this could be easily done, and with the first signs of weakening, renewed its attacks for the decline.

of weakening, renewed its attacks for the decline.

In addition to the crop developments the day's news was a fumble of finance, politics and trade conditions. Weekly returns from the leading financial institutions of Europe were interesting in that all were favorable.

Time money worked harder for medium periods and no importance would attach to this development but for the uncertainty over the political situation.

In the Keyalton state this is regarded as equivalent to an election. The state of Pennsylvania has, however, other men who attained prominence through baseball. Harold M.
